a Time to Pause

— and Reflect —

This year we pause to celebrate Bates' first century of service in fostering intellectual curiosity and academic achievement. We stop to reflect on the college's progress, and to reexamine its goals.

We look ahead to what the second century will bring, believing that only through a liberal education can a person truly free himself; that only through education can he gain a greater understanding of himself as an individual, and as a member of his world.

These Are the Men

OREN BURBANK CHENEY (1816-1903)

Oren Burbank Cheney created Bates because he ardently believed that freedom and power were available only to the learned individual. Originally the pastor of the Free Will Baptist Church in Augusta, Cheney, a clear thinker and creative educator, became Bates' first president in 1864. An independent and courageous man, he hurdled many obstacles and criticisms in building his "railway to the moon."

EBENEZER KNOWLTON (1815-1875)

Ebenezer Knowlton, next to President Cheney, was probably the most efficient and influential of the men associated with the founding of Bates. Speaker of the state legislature, and later a member of Congress, he gave up his political career to fight for completion of the Maine State Seminary, later to become Bates College, and acceptance of its charter, which he himself wrote.

BENJAMIN EDWARD BATES (1808-1878)

Through his gifts totaling $200,000, Benjamin Edward Bates was a key figure in bringing Bates College into existence. A Boston merchant, Mr. Bates was also influential in soliciting the financial aid of many of his friends. When the crash of 1873 caused many of the potential donors to withdraw their pledges, Mr. Bates was largely responsible for putting the college on a firm financial basis.

Who Guided Bates . . .

GEORGE COLBY CHASE (1844-1919)

George Colby Chase became the second president of Bates College in 1894. While he was in office, the number of buildings, faculty members, students, and the endowments were increased threefold. Specifically he raised the funds for Coram Library and the Carnegie Science Building. President Chase not only continued to teach his English classes, but he also administered the affairs of Bates personally from his home at 16 Frye Street. Although the closing years of his Presidency were made difficult by the problems of the First World War. he was still able to preside over the dedication of the Chapel, and inspect the latest addition to the campus, Chase Hall, before his death in 1919.

JONATHAN Y. STANTON (1834-1918)

"Uncle Johnny" Stanton was loved for his unique and charming personality. Because of this he holds the rank of being the best known of the original professors. An altruistic man, he was particularly fond of his students and always put them before his own interests. He enjoyed the out-of-doors, and his well known bird collection is, in part, a result of his early morning bird walks. He and his colleagues displayed an unusual amount of devotion and sacrifice to President Cheney. Bates cannot overestimate the debt it owes to its first faculty.

CLIFTON DAGGETT GRAY (1874-1948)

In 1920 Clifton Daggett Gray became the third president of Bates College. He was influential in recruiting new faculty members with broad training and doctorates. During his presidency the college went through more hard times, including the great depression of the thirties and World War II. Students were hard to come by, and any major fund raising had to be abandoned; but President Gray was able to obtain a unit of the V12 Naval Training Program, which gave Bates a sense of personal participation in the war and provided the needed funds.

First Quarter Century 1864-1889

Oren Burbank Cheney slept little that night on which he first conceived his "vision." He had just received the annoucement that the Parsonfield Seminary had burned to the ground. Serving as a sudden inspiration, the destruction of the school gave Cheney the idea of building a larger, better, and more centrally located educational institution. September 22, 1854, marked the birth of the plans for the Maine State Seminary.

Bates, in her one hundredth year, bears little resemblance to the rough, uncleared plot of land which President Cheney acquired from the citizens of Lewiston in 1856. As his dream, the seminary was to be an educational institution "of high order, on a broad basis, and centrally located." Growth from the idea to the physical structure was slow, but Cheney remained courageous. Committed to his idea, he overcame obstacles caused by the depression of 1857, the Civil War, and prejudice from Bowdoin and Colby who thought that a third college in Maine would be superfluous.

In the fall of 1857, when the doors were first opened, Maine State Seminary consisted of a partially completed Hathorn Hall and one dormitory, Parker Hall. September, 1863, marked the entrance of the first collegiate class. In January, 1864, the Bates College Charter granted by the Maine State Legislature made Bates an official member of the small group of colleges already established in New England. Bates had the distinction of being the first to allow co-education!

Six men made up the first faculty, and the student body of twenty-five was offered courses primarily in the classics and moral philosophy, according to the colonial college tradition. At the same time that Bates College came into existence, Maine State Seminary continued to function as a theological school with an enrollment of over 200. During the first few years of the school, Professor George Colby Chase (destined to become the second president of Bates) laboriously began hand-collecting the beginnings of a library.

Hathorn served as the classroom building, and Parker, divided into two sections, provided housing accommodations for both men and women. Heating facilities consisted of a plentiful supply of wood, an ax, and a great amount of determination. Co-ed dining was a feature in Parker basement!

There was an artificial pool located approximately at the corner of College Street and Campus Avenues. This was intended to check fires but served mostly as a convenient place to breed mosquitoes.

The first students were largely Maine residents and arrived either on foot or by horse and buggy. Although they were not versed in all of the social graces, they were thoughtful, intelligent, and intent on "getting on in the world." Thus they were more than willing to work, not only in their studies, but also to earn their room and board, through manual labor if necessary.

Second Quarter Century

President Chase and "Uncle Johnny" Stanton engage in a fervent discussion.

The next twenty-five years of Bates' history were dominated mainly by the administration of President George Colby Chase. During this time many new buildings were added to the college, and the grounds were landscaped to provide a suitable setting.

In 1902 Coram Library was dedicated and named in honor of Joseph A. Coram of Lowell, Massachusetts, whose initial gift of $20,000 made possible the securing of the rest of the funds.

The Chapel was the gift of Mrs. D. Willis James of New York, who, on February 12, 1912, sent a check for $60,000 with a note saying, "The above gift is given to Bates College . . . with the *distinct understanding* and *on condition* that the Chapel is forever to be used as a place of Christian Worship to the Glory and Honor of the Triune God . . ."

Andrew Carnegie made a conditional gift of $50,000 in 1908, and the cornerstone of Carnegie Science Hall was laid in 1911. This building was dedicated in 1913.

Libbey Forum was erected by W. Scott Libbey of Lewiston, in memory of his children, and was designed for the use of the literary societies and the Christian Associations. It was dedicated in 1909 and gradually evolved into use as a classroom building.

During this time Roger Williams Hall, originally designed for use by the Cobb Divinity School, was remade into an Administration Building.

Rand Hall was chiefly a gift of the people of Maine, through legislative action. It was dedicated as a women's dormitory in 1905, and was named for John Holmes Rand, first Professor of Mathematics at Bates.

In 1908 the state gave the college the Central Heating Plant; also at this time four of the smaller women's dormitories were obtained: Cheney, Milliken, Whittier, and Frye.

John Bertram Hall had served as the Nichols Latin School, the Cobb Divinity School, and the Science Building, before it was renovated and made a dormitory, East Hall, in 1913.

These years between 1900 and 1913 may well be regarded as the greatest building era of the college. While this process of expansion and growth was going on, the ties of denominational connection were gradually weakening, and Bates was becoming much more of the independent entity it is now.

The college's first football team was organized in 1875, and in 1893 the sport was officially recognized. Bates was defeated by Colby, 4-0, in the first Rugby football game ever played in Lewiston-Auburn, on what is now Rand Field.

In 1895 the co-eds began to petition for recognition as athletes, and were finally rewarded when the Women's Athletic Association was organized ten years later.

In spite of the inconvenience caused by the Spanish-American War, the beginning of the First World War, and the resulting violent fluctuations of financial values, during this twenty-five year period Bates increased its endowment and expanded its physical facilities, but, more significantly, gained wider recognition as a serious academic institution.

Flames and the old Gymnasium.

Flying was an extra-curricular activity in the late thirties.

Third Quarter

Then came the War, and Bates College had its own Army and Navy. They could be seen at almost any hour of the day drilling on Garcelon Field, until the time came for departure to a regular training camp. The thrill of a lifetime came in 1918, when midyear exams were omitted.

One of the outstanding events of the era was the burning of the old wooden gymnasium. This was easily the most unpopular building on campus when it suddenly burst into flame on the night of June 2, 1925, threatening the safety of Parker, Hathorn, and a large quantity of coal stored nearby. Although the official cause of the blaze still remains unknown, it is believed that extensive questioning of certain members of the class of '28 might clear up the mystery. At any rate, the pajama-clad Parkerites who danced about the fire were not very helpful in putting it out.

Always a leader in inter-collegiate debating, a Bates team represented America June 16, 1921, in the Oxford Union, against some of Britain's finest. Again asserting its leadership in the field of debating, the college sent a three man team around the world in 1928. The debaters, on a trip lasting from May to November, traveled 35,000 miles and participated in 23 debates.

Century 1914-1939

In 1920 Clifton Daggett Gray became the third president of Bates. This was the Harding-Coolidge era of easy prosperity. It was inevitable that there should be a financial campaign, and in the early 1920's came The Million Dollar Fund. Its complete success added $600,000 to the endowment, and provided a physical education plant consisting of four units: the Gray Athletic Building, the Alumni Gymnasium, Men's Locker Building, and Women's Locker Building. Several residences for women and a Women's Union were added to the physical resources.

This prosperity could not last, however, and the Great Depression dominated the thirties. Bates suffered. Students already attending found their financial resources near depletion, and prospective students postponed their college plans. National Youth Administration Grants aided some; but faculty and students alike hoped for more prosperous days. Bates did not suffer any crippling annual deficits during the Depression, and emerged from it a growing and successful college.

President Gray successfully pulled Bates through the Depression only to be faced by the biggest crisis which the country had yet encountered.

When the United States went to the defense of Europe in World War II, the college was granted a unit of the V12 Naval Training Program. Bates not only participated personally in the war but was involved in one of the best government training programs. The curriculum — solid mathematics, science, and pre-engineering courses, together with languages and liberal arts — was acceptable for the regular college degree.

During this period one interesting event in which Bates has personal interest and pride was the christening of the "S.S. Bates Victory" in Los Angeles Harbor on May 2, 1945. This 10,500 ton, 455 foot victory ship named for Bates College was launched at the stroke of midnight and used as a standard wartime and postwar cargo carrier.

President Gray retired in 1944, to be succeeded by our current president, Charles Franklin Phillips. He was inaugurated on November 14 of that year.

President Phillips, a former Colgate University professor and an active participant in government service during World War II, has proven that a man with a purpose and a will to achieve it can be an outstanding asset to society at large as well as to our small Bates community. The accomplishments during his period here attest to his leadership ability.

In twenty years, college resources have expanded greatly. The three-part Fine Arts Center, Page Hall, the Maintenance Center, and the newly completed Lane Administration Building represent new additions to the campus. Many of the older buildings have been remodeled and enlarged.

The world of television has also entered Bates. First, during the year 1961-1962, college and community alike joined in celebrating Bates' victory on the General Electric College Bowl, and within a few months' time, Bates, joining with Bowdoin and Colby, founded Maine's first educational television station.

Early in President Phillips' administration, the faculty undertook a far-reaching study of the curriculum, in which it measured every aspect of the program against the need to provide young men and women with effective preparation for living in this modern world. "The Bates Plan of Education," as living evidence of this study, has provided the college with a modernized curriculum which gives emphasis to the liberal arts tradition. This "Bates Plan of Education" is a distinguishing feature of Bates College today.

President Phillips has also concentrated his efforts on increasing faculty salaries so that Bates occupies a satisfactory standing among colleges. Thus it is possible to have a staff equal to the improved physical resources of the college. Scholarship and loan funds have multiplied.

Frank H. Bowles, Director of the educational program for the Ford Foundation, closed his address to the Centennial Convocation audience by saying, "[Bates] can hold to warranted pride in the accomplishment which it has built into its fabric, and enter into its second century with a new assurance of strength and purpose. It has built this on a rare combination of qualities — on simplicity, steadfastness, and integrity. While it holds these in its hand and heart, the future can never fail it."

The "S.S. Bates Victory" sails out of Los Angeles Harbor.

W.A.A. Activities are represented by Evelyn Edwards, Dorothy Adler, Esther Rowe, Luella Manter, Marjorie McCray, Lois Philbrick, an unidentifiable golfer, and Lois Wells, all members of the Class of '39.

I Thess. 4:17

If a man is a person strong in character and faith, he will not be forgotten simply because he no longer walks across the Bates campus. Professor G. Ernest Lexen was such a man. His death last spring was a shock to the entire campus, but the sense of loss gave way to the feeling of gratefulness that the Bates family had been able to know Prof. Lexen. His fellow faculty members remember him whenever they get together for a game of volleyball after classes. His Physics students remember him as they work in the labs, where they so often had scientific and philosophic discussions on Christianity with Prof. Lexen. His wife honors his memory by wearing cheerful clothing, since he felt that death was not a time for mourning.

Professor Lexen was the embodiment of the small college ideal that a close relationship can exist between instructor and student. Because of this ideal and his personality, everyone at Bates knew him well, and thus he remains alive.

Student Senate Initiated

For the first time in the history of Bates student government, the entire studentry is represented by one governing body. The formation of the Student Senate culminated months and years of work by student committees. Planning, writing, revising, and expanding a constitution for the Student Senate finally, on October 30, 1963, produced the unitary student government now in operation at Bates College.

On that October day, the group of nineteen newly elected and anxious Senators met for the first time; they were later joined by the President of the Men's Council and two freshmen Senators who were elected in November. The Men's Council has its counterpart in the Women's Council; and these two groups, together with the Senate itself, cover the whole range of student activities. As can be seen, this range of activities has three aspects; namely: activities of the men in such functions as inter-dorm intramurals; activities of the women in the operation of their Honor System, and the like; and finally, first among the three, activities involving the entire campus.

The Student Senate Constitution states that the "purpose of the Senate shall be to encourage the development of a campus attitude which stimulates intellectual freedom and concern, to seek effective communication among members of the college community, to seek for all students justice and the enjoyment of individual rights, and to encourage acceptance by students of individual responsibilities to other members of the college community."

This means that the scope and concern of the Senate includes the whole life of a student as a student. The Student Senate proposes to take an active part in the intellectual pursuits of the student — which, in so far as he is a student, are his life; to participate in the student's relationship with faculty, administration, and other students; and to be a vital force in the "college community." These are the tasks which the Senate founders have set out to do; this is the challenge which the Senators must meet.

Publications Keep

The Bates Publishing Association is an organization which supervises the publication of *The Bates Student, The Garnet,* and *The Mirror,* to see that these publications honestly represent the college. The Association is composed of a board of directors consisting of: President, Vice President, Secretary, three representatives from the Junior class, the editor-in-chief and business manager of each publication, three faculty members who also serve respectively as advisers to *The Bates Student, The Garnet,* and *The Mirror,* and a Treasurer appointed each Spring by the Student Activities Committee.

In addition to acting as an advisory board for problems which the three publications may encounter, the Publishing Association also approves their annual budgets and reports, and each year selects the editors and business managers of the publications from letters of application.

SEATED: Ann Noble, Rick Hoyt, Marilyn Fuller, Pris Clark. *STANDING:* Derek Hurst.

Garnet

Twice yearly the poems, stories, and drawings of the students are published for the entire campus. All students are encouraged to submit their works to the *Garnet* staff of five headed by Editor Marilyn Fuller. The staff, selected from different academic fields, criticizes each piece submitted, and the most significant is published. The *Garnet* helps campus communication by developing an awareness of the creativity of one's fellow students.

SEATED: Steve Adams, Norm Gillespie, Marge Zimmerman, Peter d'Errico.
STANDING: Allan Hartwell, Pam Ball, Nick Basbanes, John Bart.

Campus Informed

Bates Student

The Publishing Association enjoyed a new office this year, and each Sunday morning the STUDENT editorial board gathered there to organize the week's copy. During the year this office came to symbolize the editors' efforts to improve the STUDENT.

The first editorial of the year proclaimed, "Each week during the school year the STUDENT is published by and for the students of Bates College. Its primary purpose is to preview and report the events of the campus, and to include within its pages essays, articles, letters, and poems on a variety of subjects.

" . . . Some of these comments will be merely informative, while others will intend to be provocative. In either case, their purpose is to inform and entertain the reader in the hope of adding to his participation in Bates College's one hundreth year."

Each week, toward this end, the editors varied the layout and sought to achieve a definite style of writing which emphasized ease of reading.

Student and faculty praise of the results were noteworthy, and, increasingly, the issues assumed a continuity of form and content which make the STUDENT an anticipated and informative weekly event.

Talking over the budget are Bob Lanz, Mark Silverstein, and Steve Barron, the Business Staff of the STUDENT.

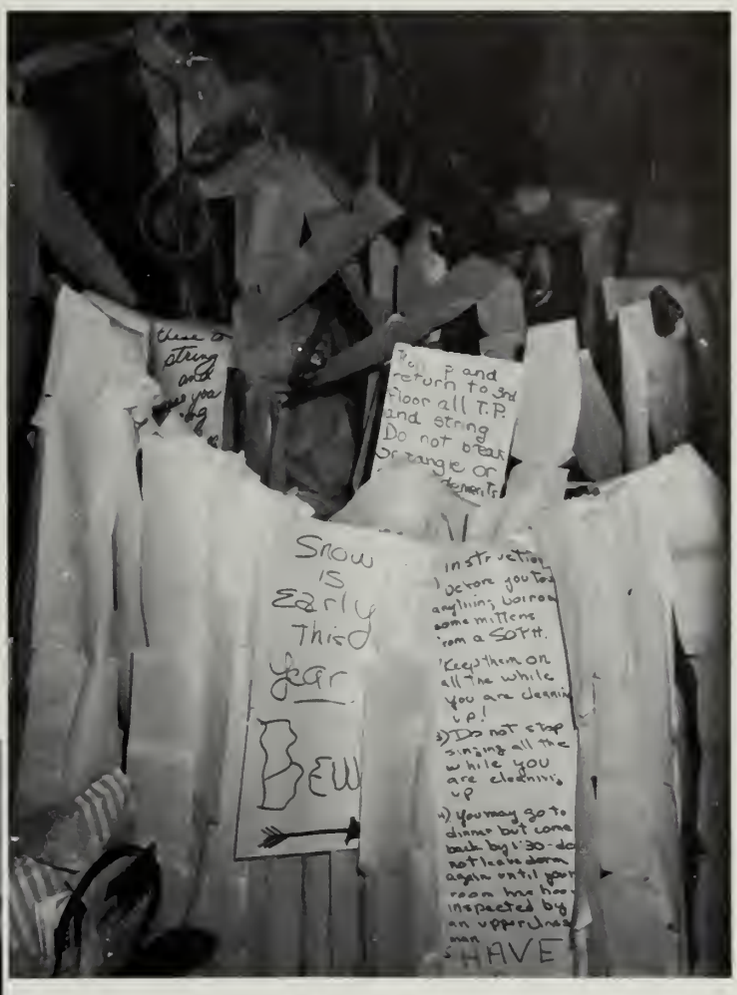
SEATED: Dave Campbell, President; Carol Stone, Linda Glazer, Nat Fischer, Linda Pike.
STANDING: Bob Halliday, Vice President; John Achenbach, Scott Norris.

Local, National, and World Service

The Christian Association is busy promoting campus activities from the arrival of the freshmen in the Fall. The IMUR party acquaints the freshmen with the upperclassmen, while Stanton Ride offers an opportunity for the entire new class to spend a day of fun in the country. CA is mainly a service club benefiting both campus and community. The campus profits from speakers provided, discussion groups organized, and free baby-sitters available to the professors. Functioning to maintain student contact with the town, the CA initiated a tutorial program, gives a Christmas Party for underprivileged children, and encourages students to work at Pineland State Hospital. World University Service also works through the Christian Association to help students throughout the world. The Faith Commission provides a spot of quiet, a time to think with its weekly Vespers service. The club truly works toward good fellowship.

Freshman Orientation :

Getting to Know You



This surprise awaits freshmen girls returning from Stanton Ride.

An interrupted sleep and unusual orders from sophomores keep the freshmen busy.

Haze Day finds the Frye House girls singing to a packed Den.

During the first three weeks of the Fall, freshmen participate in orientation. The program is intended to introduce the new students to the campus, to acquaint them with the upperclassmen. The women's plan works mainly within the dorm, and each week finds all the dormmates down in the rec room at a party, joining together in a song-fest or a skit. The men's side of campus engages in more noticeable activities. They tramp from dorm to dorm serenading the girls, hoping that their efforts will be appreciated. Haze Day culminates these activities. The freshmen, dressed in colorful costumes, obey sophomore's commands, perform stunts on the lawns, and recite original poems in the Den. That night the girls take off their bibs, boys hope to throw off their beanies at the next football game, and life returns to normal. Freshmen are part of Bates.

That Winning

Majorettes

FIRST ROW: Barb Remick, Joyce Mantyla, Christine Buchli. *SECOND ROW:* Nancy Nichols, Peggy Root.

Encouraging the football team to victory this Fall, at rallies and at games both home and away, was the Bates Marching Band. Strutting and twirling to its music were the Majorettes. Together these groups worked to promote that winning spirit. Each Friday night they gathered at the head of Fyre Street and, with cheering students following behind, marched to the rally. On Saturday afternoons in all kinds of weather they performed on Garcelon Field, and strains of the Bates fight song blended with the cheers of the excited crowd. This year during the half-time of the Homecoming game, the Band, Majorettes, and Cheerleaders formed a giant birthday cake in the center of the field and presented an appropriate musical review in celebration of Bates' Centennial Year.

Fight! Score! Win!

Spirit

Cheerleaders

Appearing at rallies, football and basketball games, and if you look or listen carefully you may even find them on the soccer field, are the Bates cheerleaders. Numbering nine plus one alternate, this year's squad was not to be outdone by the energetic spirit of the student body so noticeably prevalent at our games. With unprecedented pep and ambition this squad created an entirely new repetoire of cheers. Novelty and acrobatic formations replaced past trends and ushered in a new era in Bates cheerleading.

Variety Keynotes

Fair warm weather greeted Bates alumni as they returned to the campus to celebrate the Centennial Homecoming. The varied program offered many pleasurable moments. Friday saw Bates beat Maine in a close soccer game. A special Centennial event, a panel discussion — "Does conservatism or liberalism offer the greater value to today's college studdent," was enjoyed by all at the Little Theater. That night the first of two performances by the Robinson Players troupe was given. This play, "Winsome Winnie," depicted the typical villain of the turn of the century. The added attraction of faculty actors made the production a sparkling success. The rally was exceptionally exciting since the birthday cake held a surprise. Clarence Quimby, '10, and Fred Clough, Jr., '39, conducted the entertaining festivities. Wishes for success in the game were received from alumni clubs around the world.

William S. Paley, Chairman of the Board of CBS, speaks on education's role in the future course of the world.

Back-to-Bates

Another special Centennial event, the Dedicatory Convocation, opened Saturday's activities. The Little Theater, Maintenance Center, addition to the Carnegie Science Hall, and renovated Hathorn Hall were dedicated during a service in the Chapel. William S. Paley was the speaker at the convocation. Saturday afternoon found Bates fighting gallantly against an overpowering Maine football team. Despite defeat, the fans saw a thrill-packed game. Following the game the alumni, seniors, and faculty refreshed themselves at the Coffee Hour. The evening was highlighted by the Back-To-Bates dance. The gala decorated Alumni Gymnasium resounded with the music of Lloyd Rafnell.

The weekend culminated Sunday morning with the chapel service conducted by the Reverend Blaine Taylor, '55.

Joyce Mantyla wishes Bates Happy Birthday as an astonished President Phillips accepts the birthday cake.

"Desist, desist! Release this fair maiden!" warns Todd Lloyd as Mr. Orestes tries to abduct Phyllis Porton while Marcia Flynn looks on helplessly.

"The Role of the Individual In the Pursuit and Use of Knowledge," central theme of panel discussions and academic colloquia during Bates Centennial celebratior stresses not mere reverence for the past but also interes in the future. President Phillips, in his address at the open ing convocation in September 1963, summarized the statu of Bates College as it entered upon its Centennial Year.

"Our founding fathers were men of excellent judgment They started us off with the advantages which flow from a private college; from coeducation; from a policy of nondiscrimination because of race, color, or creed; from an emphasis on character; and from a willingness to accept reasoned change in the established way of doing things. Our present momentum as an institution comes in no small degree from such early decisions as these. It is in the spirit of our founders to use this Centennial Year to consider carefully still other changes: to adopt those which will make a better Bates and to reject the others. It is in this spirit of inquiry that I welcome all of you, both students and faculty, to the campus for this Centennial Year."

United Nations of Poetry

On October 31, as the sun began to set, a Hallowe'en demon, believed to be Mr. Tagliabue, haunted Mount David but failed to frighten away the students who had gathered to read poetry and sing folk songs together.

Despite the cold, Niramon Kuyakanon, a Sophomore from Thailand, reads Thai poetry for her fellow students.

Attired in colorful embroidered kimonos, Sachiko Matsumoto and Yoko Hirasawa recite Haiku poetry and sing songs of their homeland, Japan.

Ali Hersi from Somalia and David Dhliwayo whose home is Southern Rhodesia perform native African dances to the accompaniment of their own singing and hand-clapping.

CHDC Coordinates Campus Social Life

Chase Hall provides a good setting for a Saturday night dance.

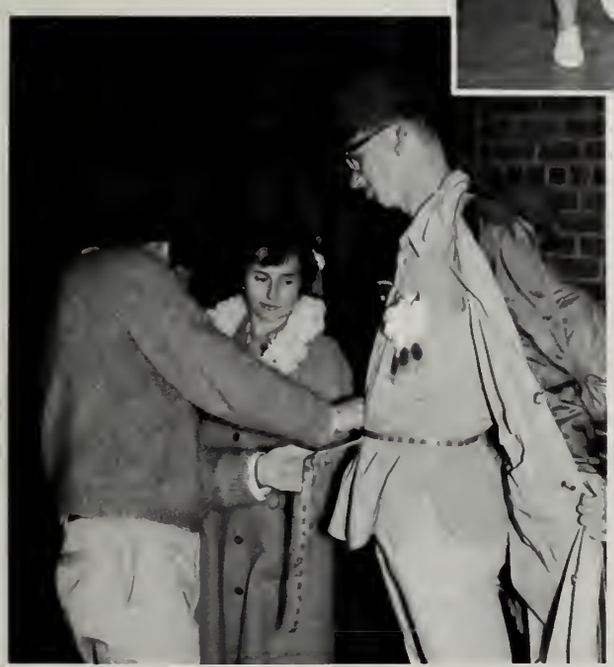
Specifically responsible for the Saturday evening dances in Chase Hall each week is CHDC, Chase Hall Dance Committee. In recent years, however, the committee has thought of itself as more of a social-planning, coordinating agency. It is more than ever concerned with providing the campus with new and interesting entertainment.

One of its most important functions is the planning of Sadie Hawkins Dance each fall. This allows an eager girl to phone the young man of her choice, invite him to the dance, yet remain unknown to him until she, in colorful costume, picks up her date, in equally bright costume, at *his* dorm. The evening is fun as Sadies and Abners whirl together in the rhythmic patterns of a square dance; and, to add romance, Marrying Sam stands ready to wed all willing Dogpatch couples.

"Hi Ya, Sadie Callin!"

East Parker Abners anxiously await their fate.

Ingrid Kaiser and Paul Sadlier leave behind the chaos of Parker Hall as they set out for the dance.



Inches mean dollars this night! Claudia Lamberti watches dubiously as her date is measured.

The Young Democrats of Bates, like the nation as a whole, rest in the period between elections. Contented with following the political scene through the newspaper and over cups of coffee, and with the speculation on future candidates and issues, the club members saved their energy for the coming congressional and presidental election campaigns.

But above and beyond all routine activities, came the tragic death of President Kennedy. Most of us in the club had worked to elect him to the Presidency, and felt, perhaps even more than most other Americans, the shock of grief at his death. Saddened, we look now to our obligations in the future of working to keep the Democratic Party in power, and of continuing the program President Kennedy had planned for America.

YOUNG Democrats

Republicans

The Bates College Republican Club offers to the college community an ideal opportunity for participation in state politics through an active program with college and local groups. Prominent in Republican affairs, the Bates club sends delegations to every important state function. Members of the club represent Androscoggin County, sit on the Maine Council of Republican Clubs and the New England Council of Young Republicans.

Activity in 1964 will culminate an original program of the Bates College Republican Club. The organization of "Project Victory" in 1962 has resulted in a strong, reformed organization of increased membership with field experience in the techniques of campaigning. The result of these plans should be a sweep at the polls next November.

This fall WRJR began its sixth year of broadcasting for the Lewiston-Auburn area and the Bates community. As usual, several staff members returned to broadcast during Freshman Week. Early in October a Key-Club Dance was sponsored by WRJR in Chase Hall, and a special chapel assembly was held during which Bates students heard their radio station announce the beginning of the Fund Drive over an FM receiver. When the exhausting drive for funds was completed, Page girls were treated by a grateful WRJR to a steak dinner . . . with several WRJR men as singing waiters! One student won a new AM-FM radio, courtesy of the station. A new office, turntable, and record cabinet served to improve the physical facilities of WRJR, while several new staff members, fresh from the Training Program, brought new voices to the air as the older members looked forward to June and departure. The election in the spring and the annual picnic brought to a close another year in the slow but steady growth of WRJR-FM as a major campus activity.

In a dramatic performace, Abby Palmer and Todd Lloyd provoke viewers to question the TRUTH, as John Holt ponders all-knowingly in the background.

1964 is not only the four hundredth anniversary of Shakespeare's birth and the hundredth anniversary of Bates College, but it is also the twenty-fifth anniversary of the Robinson Players, an active campus organization dedicated to the promotion of the theater arts. Throughout the years "The Players" has grown and developed under the most capable direction of Professor Lavinia M. Schaeffer. Now housed in the recently completed "Little Theater," his theatricai group complements its superb dramatic productions with fine movie entertainment throughout the year.

As with the fabled "coat of many colors," Robinson Players is one organization with many and varied functions. Acting and directing workshops, readers' platforms, and presentations for the monthly meetings provide students with the opportunity to perfect their acting and directing skills. Behind the scenes, production workers develop lighting techniques, make-up, costuming, and set design and construction to the point of excellence. All these efforts culminate in the production of two major plays each season. This year Pirandello's *Right You Are If You Think You Are* held audiences spell-bound. Now Bates student eagerly anticipate the opening curtain of the Robinson Players Centennial Play Production, *Henry V*.

HAMLET

Shakespeare's classic *Hamlet* was the major production of the Robinson Players in the Spring of 1963. Involving more than two hundred people working both on the stage and behind the scenes, this performance proved to be one of their most challenging undertakings. Although Shakespeare's plays are well-known to every audience, their presentation requires months of preparation — and *Hamlet* is perhaps the most demanding in this respect. Many hours of study and rehearsal preceeded the very fine performances of:

Todd Lloyd '64 as Hamlet
David Kramer '63 as Laertes
Judy Mosman '63 as Ophelia
Robert Butler '63 as Claudius
Abigale Palmer '65 as Gertrude
John Holt '64 as Polonius

Todd Lloyd as Hamlet debates the fate of Robert E. Butler as Claudius.

Voices Raised

Chapel Choir

Every Wednesday morning thirty students blend their voices in tuneful harmony. These members of the Chapel Choir are carefully selected by Professor Smith for the fine quality of their voices and for their love of music. They rehearse every Monday evening, each week concentrating their efforts on a different composition. Their presentations range from ancient plain songs to modern oratories. As they are known for their expressive interpretation of spirituals and classical compositions, both students and guests look forward to hearing the Chapel Choir sing.

Dave Campbell, Ralph Day, Russ Baker, Peter Oakes, Ted Foster, Dave Fulenwider, Bob Peek, and Todd Lloyd.

Deansmen

An octet comprised of students from all four classes, the Deansmen are a popular feature on many occasions both on campus and throughout the New England area. As official representatives of the school they have undertaken to give the best and most diverse kinds of vocal entertainment that may be adapted to their versatile style. As well as appearing on various television networks they sing at local community functions, campus events, college festivals, business conventions, and this year at the World's Fair.

Although the termination of the academic year marks the official end of the Deansmen's college activities, the group meets once again in the summer at which time past and present members celebrate their annual reunion. On this occasion the Deansmen sing in a three day period at local summer camps and nearby recreational areas.

Merimanders

Carol Johnson, Karen Cunningham, Penny Brown, Pat Gilbert, Carol Bishop, Marilyn Osgood, and Janet McEachern.

The female vocal group of Bates College known as the Merimanders now has seven members instead of the traditional six. Well known for their quality and blend of tone, these girls sing a repertoire of songs ranging from the beautiful "Moonlight in Vermont" to the haunting ballad "Cruel War." Casually formed in 1957, they have since entertained clubs, church groups, colleges, and Bates faculty and students with a steady stream of harmonious notes and pretty smiles. They have also appeared on television and have cut their own record. Wherever they go, and whatever they sing, the "Meris" guarantee good entertainment.

All Bates students are members of the Outing Club, which has the distinction of being the second oldest Outing Club in America, having been established in 1920. The council members, more commonly called the "grubs," work hard to provide the campus with numerous activities which entice the industrious and the not so industrious students to escape the grind. Many enjoyable, carefree hours of hiking, canoeing, snowshoeing offer to Bates students a taste of Maine's vacationland. Six men and six women from each of the four classes compose the council which endeavors to promote coeducation from the Freshman hike to Thorncrag in the fall to the spring outing at Popham Beach. The maintenance of 50 miles of Appalachian Trail is only one of the many responsibilities assumed by the council.

The Hickories, under the direction of two council members, is intent on developing ski enthusiasts through ski films and trips. Hickories weekend climaxes the season with a special ski trip followed by a relaxing fireside dance. Our recently acquired ski cabin at Sugarloaf, maintained by this group, offers a warm bunk for the weary skier.

Queen Joanna begins her reign surrounded by her court — Ros Avery, Ingrid Kaiser, Gail Hayden, Carol Johnson, Marty Lindholm and Carol Kinney.

a Welcome Break

The flame of Winter Carnival 1964 burned brightly as Queen Joanna Starr was introduced to the awaiting campus. The Queen and her court added an air of regality as they posed around their snow-sculptured throne. An evening of square dancing completed the night's festivities.

It was an early morning for those avid skiers who filled the buses at 6:30 and headed for King Pine Ski Area in New Hampshire. Excellent snow conditions rewarded the sleepy skiers, tobogganers and skaters. After a deliciously prepared meal in the lodge, the weary couples were entertained by a group of talented folksingers: Marilyn Osgood, Bob Spear, Mel Burrows and Charlie Love.

The decorating committee worked most of Saturday in a very successful conversion of the gym into a dreamy "Crystal Palace" with its own sparkling fountain. Saturday afternoon a team of boys from J.B. and Parker soundly defeated Roger Bill and Smith in an exciting demonstration of hockey skill. A ski movie completed the afternoon for those who had not faded away to their dormitories in anticipation of a long evening ahead.

Bates people and their guests enjoyed an elaborate buffet by candlelight before the evening's ball. Ted Herbert's Orchestra played dreamy waltzes as the couples danced under the snowy canopy of a "Crystal Palace." All activity ceased as Queen Joanna and her Court made their royal march, concluding with a dance especially dedicated to the royal party and their parents. The evening inevitably ended as happy couples departed across campus.

Sunday brought Bates' own "Big Name" entertainment. The JOURNEYMEN with their smooth voices and dry humor provided a memorable end to a much enjoyed weekend.

Excellence In

In tune with the Centennial spirit, celebrating the individual, is the Bates Debate Council which is dedicated to the enhancement of the individual debater. The history of debating at Bates is marked by evolutionary change and high achievement. Debating began in the 1890's with the intramural debates which were followed in 1896 by the first intercollegiate debate: Bates vs. Boston University. The establishment of a chapter of Delta Sigma Rho in 1915 placed the debaters on the national scene.

The twenties ushered in the "golden era" of Bates debating. In 1922, Oxford, the first foreign team to come to these shores held its first debate with Bates. Two years later, a women's debate team was established. In the thirties League debating began, and the first international radio debate was held. During World War II restrictions in travel necessitated the development of the present two man team, and with fewer men enrolled in college the men's and women's debate squads were combined.

Presently the tourney system dominates debate procedure. Almost every weekend squads are sent to regional conferences. These culminate each Spring in the national conference at West Point.

This year's debate team has been very successful. Having a veteran team of seven seniors, an experienced squad, led by the undefeated team of Hall and Ahern, has paved its way to championships at Vermont and the Easterns. Back at home underclassmen debating on the national topic 'Federal Aid to Higher Education' develop their debating techniques with their sights on further debating championships for Bates.

Intramural Competition Keen

This year has been one of increased interest and enthusiastic growth in the men's intramural sports program. Under the direction of Dr. Lloyd Lux and coach Roy Sigler, the Men's Intramural Council has sought to provide a varied sports program for all those not engaged in varsity or J.V. athletics. The program offers competition between dorms in a wide range of sports including football, volleyball, basketball, bowling, and softball. The individual gets an opportunity to earn points for his dorm in handball, chess, pool, billiards, bowling, and track. In all competition the chance to help one's dorm win the dormitory competition is a strong incentive for each to do his best. Smith South, 1962-1963 champions, are defending their title this year in a spirited competition that augurs well for the future of the men's intramural program.

W.A.A. Initiates New Program

The Women's Athletic Association Board, in keeping with the spirit of change which the campus felt this year, made various changes in its annual program. The nature of the yearly Awards Banquet was altered to give greater recognition for participation in W.A.A. sponsored activities. The traditional Betty Bates Week was eliminated and its place taken by a series of W.A.A. Nights. Proposed programs for these nights include a skating party, fashion show, and interdorm bowling competition. The dorm rep system was expanded to give more responsibility to the freshmen reps.

Field hockey and interdorm volleyball and basketball competition were carried on as usual. Due to rainy weather, the hockey field day had to be cancelled. The volleyball tournament was won by the Seniors from Rand. A banquet was held for members of the winning team, and the volleyball trophy awarded. A volleyball and basketball play day was held in February at Colby College, where the Bates women showed their skill and spirit. The year's program ended with the annual dinner for the Board and its advisers, and the Old-New Board Banquet.

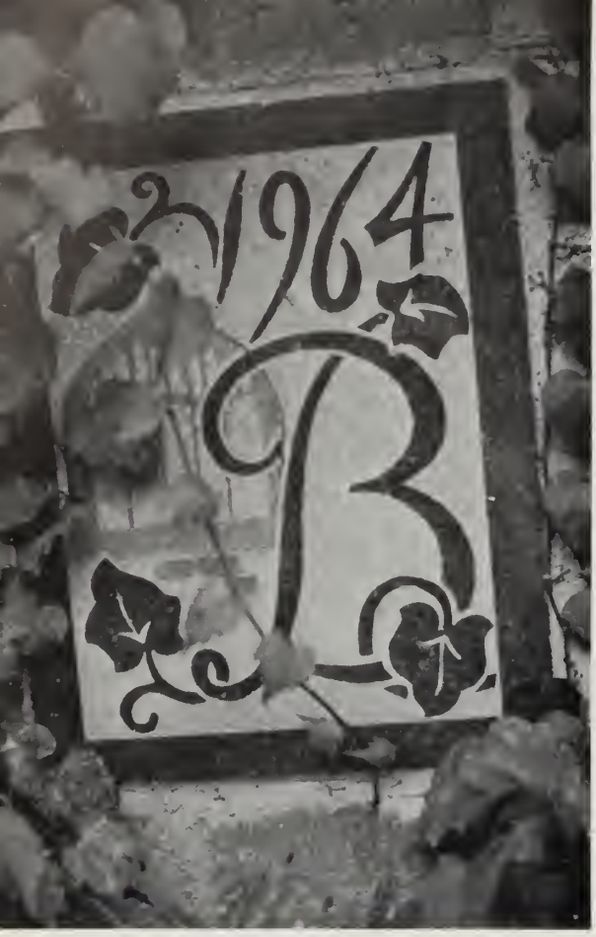
Falling leaves, drifting snow, spring showers, and warm summer sunshine were all recalled by this year's Pops Concert, "Echoes of the Seasons." Interpreting the seasons in tempos from the tango to the waltz were the Choral Society and the Concert Band under the direction of Professor D. Robert Smith. For both of these groups, Pops Concert is the culmination of spring rehearsals. Versatility is evident, for songs like "June is Bustin' Out All Over" and "Summertime" are in complete contrast to the classical compositions which are performed at their annual Christmas Concert.

Complementing this musical grace is the fact that Pops is the only formal dance of the spring season. It is attended by townspeople and professors as well as students; and all enjoy together the changes in musical mood, the artistic decorations, and the dance music of Al Corey's Orchestra.

Enjoying the musical moods are Bill Evans and Debbi Perkins.

Relaxing between dances are Linda Cummings, Ted Beal, Pat Donovan, and Joanne Campbell.

Ivy



The Ivy Plaque is located on Coram Library.

Can you imagine Ivy Day Exercises with a program three and a half hours long, with the Juniors and the College Band marching from Parker Hall to Hathorn, with each member of the class putting on a trowelful of earth as the ivy is planted? All these activities may be hard to visualize, but they all occurred on an Ivy Day since the first one was held by the class of 1879.

The history of Ivy Day is almost as old as the college itself. Although the external celebration has changed over the years, the true meaning of the day, symbolically rendered in the oration of '79 as the growing vine, has endured. The present ceremony uniquely combines a shout with a whisper. Members of the junior class satirically toast the coeds, the men, the faculty, and the seniors. Yet, when this shouting is over, the last jest concluded, and the echo of laughter has died away, each junior turns his thoughts to his own social and intellectual growth as the Ivy Oration and Ivy Ode are recited.

As Juniors We Plant Ivy

Day

President Norm Bowie and Vice President Paul Goodwin plant the ivy.

Ivy Day Ode
THE STEM ONLY

An instantaneous twinge of pain
and the Ode begins
as it must begin,
oozing at first and then
in a torrent of ecstatic sorrow;
a burning eulogy
forcing itself into a symbol
of resolution and resurrection
as we rewind the film —

The decrees went out and summer closed
that first Freshman fall, and we had
all been called:
called by necessity
called by parents and society, some by
ourselves to be part of the wave:
"Class of 64" through the meat grinder.

Shall we bow our heads and remember together?
Prayer is remembering . . .
The arrival, Thorncrag, games.
We had only the name then,
nothing else: faces thrown together
by an accident of time —

But the seed was planted,
and the fragile young roots
branched from each to each as
we began to heal our several wounds,
began to share the burden of guilt and fear.
And the Ivy grew, reaching awkwardly
toward the light — until a certain reaper,
frightened within us, turned and severed
stem from roots as we gaped
our well-oiled minds wide
and swallowed whole the dream,
forgetting the longed-for leaves.

But let there be no confusion:
The stump lies dormant,
and if it is to grow at all,
as sure as life
the running battle with despair
must be renewed:
Better to walk shuddering into the void
than gaze at Eden in regret,
suffering from those wounds which bleed
yet we may never see.

How old is Spring?

How old blows wind
That wafts thru' the elms,
wrinkles the grass,
That warms the soul, evokes
a laugh?
How old blows wind?

How long drops rain, so
gentle, still;
And how far shines the sun,
to what lake or hill?
And —
why is grass green?

How old is Spring?

The Tradewinds entertain!

the Spring

Heralding the return of warm weather each year is Spring Weekend: three days of fun and frolic sponsored by the Art Association, Chase Hall Dance Committee, Outing Club, and the Junior Class. The 1963 festivities began with the Intercollegiate Art Exhibit, at which watercolors, sketches, and paintings set up along the walks added fresh color and life to the campus landscape. The blithe mood of the students heightened with Friday evening's jazz concert. Despite all merrymaking, Winter left reluctantly this year as rain turned to snow early Saturday morning. That evening, though, the spirit of Spring triumphed at the Ivy Dance, "Kaleidoscope," as couples danced to the music of Bob Hall and his Orchestra and listened to ballads sung by Todd Lloyd.

Professor Sampson and Dr. Chute compare interpretations of abstract art.

Blue skies and cold breezes greeted all who arrived at Popham Beach Sunday morning for the annual clambake. Outing Club members, with preparations already well underway, encouraged chilled newcomers with orders "To keep warm, keep busy!" and all helped to prepare fires, dig pits, and set up shelters. Soon the beach resounded with shouts as energetic groups sailed frisbees over the sand, and a few individuals dared to wade along the shoreline.

At this year's outing, joy became sorrow, and gay laughs were exchanged for strained silences. The ocean had been rough all day, and as the surf rose higher over the rocks, a student was swept into the water. His companions worked together to pull him to safety, but one of the rescuers lost his footing and was washed into the sea. Dale Hatch died bravely; still he passed from us, and the Memorial Service held Monday morning in the Chapel could not completely express the sorrow and sympathy felt by the Bates Community.

Linda Browning and Linda Jarrett work on layouts in the Parker Hall P.A. Office.

This year the *Mirror* staff worked to publish a book truly representative of the entire campus. Realizing that a yearbook is read not only by the current students but also by people unfamiliar with Bates, we felt that pictures rather than copy would show more accurately the life of the campus.

In recognition of our Centennial Anniversary, we have balanced the history of the college with this year's celebrations to show that while Bates reveres the past, it also anticipates the future with its educational advancements.

The new section called "Academics" was conceived in order to portray the relationship between the faculty, student groups and the individual student. This section captures what we feel to be the true spirit of education — original thought, accurate communication and thoughtful, uncompromising action.

Football Team Has Rugged 2-5 Season

Two close wins and a variety of losses marked the 1963 version of Bates football. Coach Bob Hatch's gridmen, hard hit in the line by graduation losses, showed that when they were good, they were very good, but when they were bad, they were very bad. Inexperience was more of a problem than usual in 1963.

Bates opened the season on a sour note, losing to Norwich by a 34-6 count. The 'Cats, a slight favorite, ran into a wide open attack, and Norwich took an unconquerable early lead. Fullback Tom Carr scored the only Bates touchdown. The gridmen then traveled to Boston to meet Northeastern. After playing to a 6-6 first quarter deadlock, the Huskies threw their powerful machine into high gear and rolled up a 41-6 victory. Those at the game saw why Northeastern later received a bowl bid.

Finding it difficult to win on the road, the 'Cats found their own Garcelon Field a little more friendly. In their home debut, Bates handed favored Worcester Tech a decisive 13-0 loss. The Garnet made its initial score late in the first half. Quarterback Bill MacNevin hit end Grant Farquhar with a 40-yard pass, and on the next play Carr scored from four yards out. John Yuskis, who gained more than a hundred yards by rushing, scampered for an eleven-yard touchdown early in the fourth quarter to put the game out of reach, Bates winning, 13-0. This was the first shutout victory for the Bobcats since 1958.

At Middlebury, Bates continued its winning ways. Captain Paul Planchon took over after Yuskis suffered a severe concussion, and led the stubborn 'Cats to a rallying 14-9 win. Trailing 9-0 at the half, Bates went to work with Carr and Planchon ripping the line. Planchon repeatedly swept his right side on electrifying runs and set Carr up for the scores. Lineman Jim Callahan and Steve Ritter played key roles in stopping a Panther drive on the Bates 15-yard line late in the game.

Heading into the State Series with a respectable 2-2 mark, things looked optimistic. However, the 'Cats, hobbled by injuries, met head-on with the Black Bears of Maine. Overpowered in the line and outplayed in the backfield, Bates was the victim of a 49-0 whitewashing. The one bright spot for the Garnet was the play of halfback Harry Mossman.

The Bobcats bounced back to face a once-beaten Bowdoin team. They jumped off to an early 7-0 lead on a 51-yard run by Carr. Bowdoin later scored, but failed to convert, and Bates seemed the victor with only three minutes left in the game. But on a disputed pass interference call, the Bears were given the ball on the one yard line, and scored to win, 14-7. A tremendous defensive effort was put forth in vain by the Garnet.

Finally the 'Cats went to Waterville to meet the Colby Mules on a muddy field. In much the same manner as the Bowdoin game, Bates scored early, on a 75-yard run by Yuskis. However, Colby on a safety and a long touchdown pass forged an 8-7 victory. Once again a strong defensive effort was put forth by the maturing Bates line, but it was not quite enough.

With a tough 1963 season in the books, Bates can look forward with optimism to 1964. Twenty lettermen will return next year, and the Hatchmen should make considerable improvement on this year's 2-5 mark, which with a break or two might have been 4-3.

Soccer Comes of Age in 6-3-1 Year

In its second season with varsity status, the 1963 Bates soccer team posted a 6-3-1 record against some formidable competition and took second place in the State Series behind a powerful Colby squad. This was the best record for Bates in soccer's brief but rapidly rising career here. Soccer reached another milestone this year; it emerged as a full-fledged spectator sport. Large crowds of students and faculty members attended each game at Garcelon Field.

The Bobcats opened new Coach Roy Sigler's first season by losing a tough 7-5 decision at Nichols College. With Bates leading 5-3, goalie Jimmy Onyemelukwe sustained a shoulder injury. This left a big gap in the Garnet defense and Nichols rallied to win. Junior Bob Lanz scored two goals for Bates. Senior Steve Barron, exchange student Dan Hagglund, and freshman Carl Peterson each tallied once.

The State Series opener resulted in a 5-1 win over Maine. Hagglund with three goals and Lanz and Barron with one each led Bates. Nasson College was a 6-0 victim in the Bobcats' first home game. Lanz set a school record with five goals. Hagglund had four scores in a 6-2 win against Brandeis. In this game, the defensive play of Bob Thompson, Todd Lloyd, George Beebe, Bob Kramer, and goalie Art Agnos was outstanding, as it was all season long.

The brilliant playmaking of Captain Lloyd Bunten highlighted a thrilling 4-2 win over Bowdoin at home. Lanz had three goals for Bates, and Onyemelukwe was impressive in his return to action. Before a Homecoming crowd the Bobcats shut out Maine, 3-0. Garnet scores were by Bunten, Lanz, and freshman John Recchia.

The Colby Mules snapped Bates' five game winning streak by handing the 'Cats a heartbreaking 2-1 loss. Lanz had the only score for Bates, which had several chances to put more into the nets. But Colby broke a 1-1 tie in the last period on a mixup in front of the goal. The defense again was outstanding. Next the Bobcats traveled to Brunswick where they encountered an aroused Bowdoin team and a torrential rainstorm. The result was a 2-2 tie, with Bates goals by Barron and Peterson.

Back at Garcelon Field, the Garnet returned to their winning ways by whipping Clark University 3-2. Bunten and Lanz had the markers for Bates, and freshman Ed Wells played well replacing the injured Hagglund. The final game of the season was another frustrating loss to Colby 3-2. Hagglund had both Bobcat scores, as the Mules again broke a tie in the fourth period to win.

The Bobcats enjoyed a fine season, and it can safely be said that this team definitely established soccer at Bates. Several members of the squad were awarded All-Maine recognition. Captain Lloyd Bunten, Hagglund, Beebe, and Thompson all made the first team, and Lanz and Peterson took berths on the second unit.

Bobcat Harriers Have Great Success

Long distance running enjoyed its most brilliant fall at Bates in 1963. Paced by wiry freshman Karl McKusick, the Bobcats romped to victory over every regular season opponent except Maine, and took fourth place in the Eastern meet in Boston. The Garnet beat such large schools as Vermont, Boston College, New Hampshire, and Boston University.

Followed by Captain Eric Silverberg, Finn Wilhelmsen, Ken Trufant, and the others, McKusick was the first Bates finisher in every meet he ran, and was beaten only against M.I.T. Karl polished off a terriffic year with first place medals in the freshman races at the New England's, Eastern's, and, most impressively, the IC4A meet in New York City. His remaining three years of varsity competition are eagerly awaited by Coach Walt Slovenski.

Silverberg and Wilhelmsen closed out their Bates cross country careers with steady performances in every meet, and they will be missed next year. The returning veterans will be McKusick, Captain-elect Trufant, Basil Richardson, and Paul Swensen, another freshman letterman.

Exciting Bobcat Five Has Good Year

Basketball at Bates experienced one of its most colorful seasons in 1963-64. A late season slump resulted in an 11-12 record, but the fast, high-scoring offense and pressing defense made every game full of excitement. The State Series mark was 4-5 to give Bates a third place finish behind Maine and Colby.

The season opened with a thrilling 72-69 win over Colby, the first Bates win at Waterville in several years. Seth Cummings had 22 points for the 'Cats. A fine effort by the Garnet was nullified when St. Anselm's exploded in the last few minutes for a 79-71 victory. Cummings again was high scorer with 25. The following night powerful Northeastern rolled up a 24 point lead at the half and easily beat Bates, 82-62. The Bobcats made their State Series record 2-0 by holding off a Bowdoin rally, 73-71. Five Bates players scored in double figures, paced by Cummings' 21. The home season opened against Maine, and the Black Bears, shooting 65 per cent from the floor, walked off with an 88-76 win. Bill Beisswanger's 17 points led Bates.

In the Downcast Classic tourney at Bangor, the 'Cats, lost both their starts, 75-68 to Colby and 96-89 in overtime to Maine. Ted Krzynowek had 40 points in the two games and was named to the All-Tournament team. After Christmas vacation, the Colby Mules got a big early lead and held on to win 76-69. Cummings led the Bates rally and had 26 points. The Garnet broke its losing streak with a 63-56 victory over M.I.T., Krzynowek scoring 17 points. Bowdoin then came to Lewiston and was trounced 76-68 by Bates. Cummings, Krzynowek, Carl Johannesen, and Don Beaudry were high scorers. The next evening Bates upset New Hampshire 96-84 with a marvelous all-round performance. Beisswanger, Cummings, Johannesen, Beaudry, Krzynowek, and Captain Bill Gardiner all scored in double figures. Two nights later the offense was able to produce only half as many points, and Bates lost to Maine 54-48, although outplaying the Bears in every department except shooting.

A new Bates scoring record was set with a 109-94 win over Brandeis. Cummings and Beisswanger led the way, and Johannesen hauled down 22 rebounds. The Bobcats then swept a two-game trip, winning 82-76 over Coast Guard and 78-69 over Worcester Tech. Krzynowek was the high scorer in both games, and led the 'Cats back from a ten-point halftime deficit against Worcester. Beaudry's passing and playmaking were even more brilliant than usual in these two wins. The season's highlight was an 81-75 win at home over Maine. This was as fine an exhibition of team basketball by Bates as was seen all season. Cummings, Beisswanger, Johannesen, and Krzynowek were in double figures, and Beaudry had nine assists. Another two-victory road trip was accomplished with wins over American International 88-82 and Clark 100-80. Cummings had 30 points against A.I.C., Krzynowek 23 against Clark.

As it turned out, the win over Clark was the last of the season. A six-game win streak was reversed by five losses to close the year. At Waterville, Colby ran off 19 consecutive points late in the first half and won 94-83. All five Bobcats again scored at least ten, paced by Beaudry with 20. An amazing last-ditch rally against Williams fell short, and the Garnet went down 84-82. Cummings had 20 points for Bates. Bowdoin took an 87-77 win over the 'Cats, their only State Series triumph, despite a 29 point performance by Cummings, who then scored 34 against Tufts in a losing cause. The Jumbos held off a late rally to win 88-84. The final game was another thriller, with Springfield winning 94-86 in overtime. Bates caught up at the very end, but could not keep up the pace in the extra period. Beisswanger was high scorer with 24 points.

Considering the serious lack of height faced by the Bobcats, their 11-12 record was a good one. They depended on bothering the opposition with an all-court press, and several of the victories came about largely because of it. The team averaged 78 points per game, an indication of its fast style of play. Cummings led the scorers with a 19.5 average, and Krzynowek, Beisswanger, and Beaudry were also in double figures. Losses by graduation will be light, and next year's squad will have the advantage of considerable experience, which makes the outlook very bright for 1964-65.

Indoor Track Team Wins 5 of 8 Meets

The winter track team compiled an enviable record this year. The Garnet thinclads opened their season against M.I.T., losing a scant 56 to 57. The final relay won by the Engineers, gave them an unanticipated victory. This loss was followed by two more: the first to a powerful Northeastern Team, 80 to 33, and then to Maine, 68½ to 53½. The Black Bears invaded the Gray Athletic Building and were confronted with more than they had anticipated. It was only with the conclusion of the final event that victory was at all secure. Bates then went on with greater determination to overpower her next seven opponents, including Bowdoin 57 to 65, Tufts 31 to 82, and the University of New Hampshire 41 to 72.

This record by no means exemplifies their accomplishments. Without a doubt the sensation of the year was centered around the vaulting pit where Bob Kramer and Freshman Chris Mossberg raised the bar to all time highs. Kramer set the Bowdoin indoor record at 13'1⅞" and then came back to set a varsity meet record here of 13'5¾". Chris Mossberg set a new Freshman record of 12'10½".

In the high jump pit Junior Tom Bowditch set a new record of 6'5¾" against the Engineers of Massachusetts. Also a valuable and consistent point winner in this event was Senior Dave Johnson.

The credit cannot all go to the pit Slovinskimen, for the runners elevated their own records above all expectations. Senior Paul Williams set a new meet record of 5.1 seconds in the 45 yard dash, and Senior Finn Wilhelmsen delivered a meet record of 9:39.8 in the meet with the University of New Hampshire. This time was later cut by Freshman Karl McKusick, who in the final meet broke both the cage and meet records with a startling 9:31.6. Captain Jon Ford offered thrilling races in the 600 yard run. Ford and Gerrit Binneweg together garnered many valuable points in this event.

This year the Freshmen played a great part in the success of the season and have left high hopes for next year's team. Not only did they produce two successful record holders, but also first place candidates: Tom Flach and Eddie Wells in the 45 yard dash: Jay Sweeney in the 100 yard run: and George Kahler in the shot put.

The Freshman influence can, however, be overemphasized. for the upperclassmen were the mainspring of the team. giving not only great skill but the necessary depth to secure a successful season. Al Harvie, sustaining an injury through most of the season, was able to win both the high and low hurdles in the last meet. Senior Eric Silverberg and Sophomore Paul Savello were consant contenders for first and second places in the one mile and broad jump respectively. while Senior Dave Harrison and Sopohomore Wayne Pangburn carried the weight department to more wins than in past years. The whole team is waiting with great expectation for the outdoor track season, when they again can prove their prowess.

Dave Harrison, a consistent scorer in the weight events, tosses the 35 lb. weight.

Bates Nine Goes 10-4

An easy catch for Captain Taylor.

In 1963, for the second straight year, the Bates baseball team tied Colby for the Maine State Series championship. The Bobcats had a record of four wins and two defeats in Series play, and chalked up a fine overall mark of ten and four. Bates placed three players on the All-Maine team chosen by the coaches of the four Maine schools. They were pitcher Thom Freeman and infielders John Lanza and John Yuskis, the latter a freshman. Lanza won the State Series batting title with a .360 average.

The season opened with a brief southern trip, the first vacation tour by a Bates team in many years. The Garnet split the only two official games played on this trip. Red Vandersea's homer and the combined four-hit pitching of Ted Krzynowek, Ted Beal, and Bob Lanz gave Bates a 9-1 victory over Washington College. Two days later, Rider College in ten innings scored a 2-1 win over the Bobcats, who got only two hits.

Freeman opened the regular season with a brilliant four-hit shutout as Bates beat Tufts, 3-0. Ron Taylor had a home run for the Garnet. Yuskis' three hits led the 'Cats to an 11-5 victory over American International at Springfield, Mass. The record was improved to four and one when Bates held back a late rally to beat M.I.T., 8-7. Freeman went all the way for his second win, as Bates made good use of its five hits.

The first home game resulted in an easy 9-3 win over Lowell Tech. Lanz pitched a six-hitter and held the visitors scoreless over the last eight innings. Paul Holt had three hits. Colby beat the Bobcats 7-2 in the State Series opener at Waterville. Bates threatened all afternoon, but left ten men on base. The next game was a 9-2 triumph over Suffolk on the five-hit pitching of Lanz, Krzynowek, and Taylor.

Freeman hung up his second shutout with a three-hit victory over Maine, 4-0. Lanza had three hits in this game. Four days later Freeman did another whitewashing job, this time on Bowdoin, 3-0. He gave up six hits. Yuskis had two hits and two runs batted in. Four errors cost Bates an 8-6 loss to Northeastern. The highlight of this game was Dennis Feen's three-run pinch hit homer.

Bates lost a 2-1 heartbreaker to Maine at Orono. Freeman pitched well, and drove in the only Garnet run, but had no batting support from his teammates. Yuskis belted a three-run homer as Bates walloped Bowdoin, 8-2. Both Polar Bear runs off Krzynowek were unearned. Lanza had three hits. The final game of the season was the most exciting, as Bates wiped out a 3-0 deficit to beat Colby, 4-3. Bill MacNevin's two-run double in the eighth inning won the game, and gave the 'Cats a tie with the Mules for the state title.

Despite the loss of several veterans by graduation, Bates will have eight returning letterman in 1964, and Coach Chick Leahy hopes for another good year. At the spring sports banquet, shortstop Paul Holt '64 was elected the new captain.

Red Vandersea slides into third base as Colby's Bruce Waldman waits vainly for the throw.

Bud Spector is out at first on a close play.

Spring Tracksters Have Good Season

Bates opened the 1963 outdoor track season in rather unorthodox fashion when Northeastern, visiting Garcelon Field, decided the wet and soggy track was too much for its men and withdrew. Bates led at the time 30-24 and was declared a winner by forfeit. Bobcat first place winners were Tom Bowditch in the high jump, Bob Kramer in the pole vault, John Curtiss in the javelin, and Paul Williams in the 100-yard dash.

The following week the Garnet rolled to an easy win over Colby, Brandeis, and Norwich by racking up 97½ points. Blue ribbons were won by Bowditch, Curtiss, two by Al Harvie in the hurdles, two by Wilhelmsen, and three by Williams, who had an overall total of 17 points.

Yankee Conference and Greater Boston universities proved too much for the Bobcats as they fell to Massachusetts and Northeastern. However, some consolation was gained when Bates edged out Tufts for third place in this quadrangular meet at Amherst, Mass. Harvie won both hurdles and Curtiss took first in the javelin; these were Bates' only winning performances. Bowditch, Williams, Wilhelmsen, and Captain Bill LaVallee took some second places to help the 'Cats earn 38 points.

Bates took third place behind Maine and Bowdoin in the State Meet at Waterville, an event postponed four days by a snowstorm. Pete Graves won the half-mile for the second straight year in the time of 1:58.4. Wilhelmsen in the two mile, Harvie in the low hurdles, and Dave Johnson in the high jump also had first place medals for the 'Cats.

Curtiss won a first place in the javelin throw to lead Bates to a good third place finish in the Eastern Intercollegiate meet at Cambridge, Mass. Bates had 42½ points in the meet, which was won by M.I.T.

With depleted forces because of final exams, the Bobcats still managed to take fifth place in the New England meet at Orono. This contest was won by Holy Cross, with Maine taking third. Paul Williams placed in three events and scored nine of Bates' sixteen points. Other place winners were Harvie, Curtiss, and LaVallee.

Golfers Win 9 Matches

The 1963 golf team at Bates was the most successful in the school's history; in fact, it was the first squad to turn in a winning record. In State Series play, the Bobcats lost only two matches, both to Maine, in six outings, and overall they finished with a record of nine and six.

Chuck Lasher, Captain-elect for 1964, played in first position for most of the season except when sidelined by appendicitis. His brother Walt was number two man, followed by Captain Tom Brown, Lynn Simpson, John Schatz, Bill Farrington, and Phil King. Simpson and Farrington were freshmen.

Brown and Simpson compiled the best individual records, each winning eleven of fifteen matches. In the State Series tournament at Augusta, Chuck Lasher tied for second place with a 157 total for 36 holes; Brown tied for fifth with 162.

Six lettermen will return in 1964, and next season's squad should better this year's record.

Tennis Team Has

Despite the ineligibility of two-year letterman Pete Glanz, the 1963 Bates tennis team was one of the strongest in the modern history of the college. The highlights of the season were junior Jim Wallach's winning of the State Series singles championship, the Garnet team's tying of arch-rival Bowdoin for the State Series crown with a record of five wins and one loss, and two beatings administered to Bowdoin star Sam Ladd by Wallach. For the second straight year Captain Jim Corey had the best match record on the squad, a laudable singles mark of 10-1. Wallach and freshman Bob Thompson each compiled a 9-2 mark, and playing together as a doubles team lost only one match all season.

The team coasted to a 10-1 record, with the only loss inflicted by Bowdoin 7-2 at Lewiston. The Bobcats reversed the defeat by the same score at Brunswick to end the Bowdies' long winning streak in State Series play. In 1964, there will be six returning lettermen: George Beebe, Todd Lloyd, Al Williams, Jim Dodds, Thompson, and Captain-elect Wallach. So Bates should come up with another fine team next year.

Sometimes I think about the brook that runs by
It is a still running one
not too many rapids
but a few to keep the rocks smooth.
It is fairly deep,
the bottom is mostly sand,
wide stretching bank to bank.
The holes in it are deep enough for swimming
when the mosquitos aren't too thick
deepest when the heavens decide
it is building season.
Sometimes you can hear it
not rushing quickly
but at night when the cold snap
has surprised us all
the brook even becomes ice-covered.
The hearing comes at night, a loud crack
louder than the partridge
drumming in the spring.
The noise sounds clear through the woods
snow muffled.
To my mind this brook is a good thing to sit by
watch the smooth darkness
and the small eddy circles go by.
Ideals step softly into my mind
gliding through
stopping sometimes, waiting.

A friend could sit on the other bank
talking, quietly watching.
He'd say that downstream
there's a pool.
must have been hollowed by stones
grating
on one another,
sand slowly forming
falling to make a smooth bed.
We'd go down and look at it
then follow the curve to the rapid part
full of rocks and water winding
not smooth over them.
Looking at the water becomes a fascination
colored as it is, foaming with air
and sometimes a fish comes jumping
sideways straining
then straight on through.
We'd sit and talk over the moss,
with feet and hands feeling the soft
and springy tufts
saying the lack of rain hadn't hurt it much.
Then we'd leave
feet cracking on fallen branches,
sorry perhaps
but not really leaving.
The droughts come, followed by the rains
the brook swells and dries up
as I sit and think on
the brook that runs by.

As Bates reaches its centennial anniversary and continues to move ahead, many business organizations have been and will continue to be part of the development of the college and the community.

Bates®

MANUFACTURING COMPANY

now entering its 114th year as a Maine textile enterprise, congratulates Bates College and the Class of 1964 in an eventful year which marks the College's 100th Anniversary. This Company is proud of the role that its founder, Benjamin E. Bates, played in the development of the College in its formative years, and of our close relationship during these past 100 years. As the achievements of Bates College and its many and lasting contributions to world culture are reviewed, we immediately realize that we have been profoundly rewarded for the early endeavors of Mr. Bates, his successors and associates during the past century of time.

The Bates Manufacturing Company truly values its kindred relationship with Bates College and looks forward to many more years of friendly and constructive association.
